Fresco
TRANSLUCENT COLOUR WASH

TERRACO®

Fresco is a decorative effect for walls and is part of the basket of products that make up the Designer Collection products from Terraco created with giving specifiers and applicators a diverse colour option.

Fresco is a translucent colour wash applied in a variety of ways which allows the user to create innovative patterns and effects. It is used internally to create a colour washed effect over a semi glazed surface, such as vinyl silk paint. It is used internally in combination with other decorative effects products from Terraco such as Handytex, Terravertine, Sardinia Brush and Suede.

This product will transform the plainest walls into attractive warm finishes with varying degrees of depth. Fresco allows the user to create an effect that will enhance any room by creating a contrast between what appears to be shaded and light coloured areas, and when applied over a textured substrate, it will accentuate the varying texture depth.

Terraco Fresco is available as an ECOLIFE product!
Using the latest, advanced green technology, the Terraco EcoLife branded products are a range of ultra low VOC products, free from Volatile Organic Compounds (VOCs), formaldehyde and other potentially harmful emissions. These water based, solvent free, products contain specially developed polymers and additives that ensure their inertness and ecologically friendly nature. The EcoLife range of products surpasses the most stringent international and national regulations pertaining to interior decoration products with VOC levels of less than 5g/l.

Features & Benefits
- Creates a contrast by what appears to be shaded and light areas
- Versatile, offering a wide option of finishes
- Transforms plain walls into rich attractive finishes
- Easy to use
- Low odour
- Non-combustible
- An ultra low VOC product
- It is water based, therefore user and environmentally friendly

Uses
Fresco is used either as a:
- Colour wash over vinyl silk painted walls to create subtle, soft effects on almost any interior wall / ceiling in a home, office or hotel; or
- Translucent colour wash over other Designer Collection products and will enhance the textures in feature walls for restaurants, public ablution facilities, hotel lobbies, conference facilities and commercial offices.

Application
Fresco can be applied using a sponge in a circular motion, a lint free cloth in a dabbing fashion, a soft bristle brush or a low pile roller.
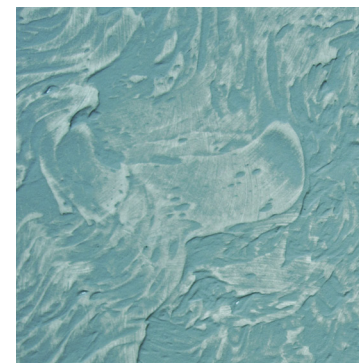

Architectural Specification
New surfaces: Ensure that all dust, dirt and foreign matter are removed. Also ensure that all surfaces are free from salts, oil, grease and ridges. Protect all adjacent surfaces not to be coated. Repair all cracks, chips, voids and damages using Terraco Handycoat Interior. Prepare surface using Handycoat Interior and sand to a smooth level surface. Apply suitable basecoat of vinyl silk paint (or for texture select suitable Terraco Designer Collection product) and once cured apply Terraco Fresco as per architecturally approved sample.

Old surfaces: Ensure that substrate is firm. First wash down the surface with a sugar soap solution, rinse and allow to dry. Repair all cracks, chips, voids and damages using Terraco Handycoat Interior. Apply suitable primer. Apply suitable basecoat of vinyl silk paint (or for texture select suitable Terraco Designer Collection product) and once cured apply Terraco Fresco as per architecturally approved sample.
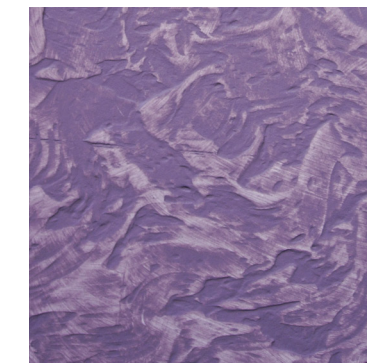

Consumption rate
0.15 – 0.20 kg/m² depending on the surface
